“Constantly working with spa and salon owners around the world, I have always been asked for recommendations on spa furniture. Until now, I haven’t been able to recommend specific pieces with confidence.

Belvedere approached me regarding the development of a line of spa furniture. I looked forward to working with Belvedere, an industry leader with over 80 years of experience in the salon and spa furniture business. I knew we could work together to make spa furniture that I would be completely comfortable with and proud of. We have partnered together to make a quality line of spa furniture that will exceed the needs of the spa owner as well as the customers.”
